furniture supply

We offer a comprehensive range of products for both indoor and outdoor requirements from a diverse group of suppliers and manufacturers including:

- Commercial seating
- Apartment packages
- Hospitality furniture
- Office & conference seating
- Outdoor entertainment & poolside furniture

In addition to the comprehensive range of ready-made products to select from, we also provide custom-built furnishings to suit each project.

We work with manufacturers who offer modifications or new design concepts to capture the essence of each project giving you the option of having a totally individual concept.

design concept & colour planning

Every project begins with a design concept. We can work with you to create a total design solution to best suit your individual project through:

- The creation of a colour palette to coordinate your total interior/exterior colour concept
- The selection of surfaces and fabrics to suit the colour, texture and practical use for each project
- A furniture range that captures the distinctiveness of your profile

From colour planning & room layout to furniture placement, we can develop a solution to best suit your commercial space, providing you with a total design concept.

furniture, fixtures & equipment

For multi-room fit out or refurbishment, a total package can be coordinated to individual room requirements.

We can supply all items ranging from furniture & electrical equipment to soft furnishings & accessories tailoring these to your specific design and colour concept.

Solutions for multi-room fit outs with special requirements are easily met through our manufacturing advantage. From ensembles to specialised lounge and seating, to size specific furnishings, all packages can be tailored to suit.

We create a trouble free solution for your FF&E project by offering a TOTAL interior package.

project management

With each project managed, we undertake to create a unique commercial space through service excellence, product depth and commitment to ensure an end result which provides added value.

Perri Commercial Concepts can organise and manage your project ensuring your project is completed within pre-defined scope, quality, time and cost constraints.

Through the use of our resources—suppliers, manufacturers, contractors, planning & communication—we provide a project management service which is effortless and seamless for you allowing you to continue running your business.
